

Aneeq Mehmood

0331-7442409 | aniqmeh9000@gmail.com

Objective

Motivated and detail-oriented Computer Science undergraduate seeking an Artificial Intelligence internship to apply to learn, contribute to impactful projects, and grow as a future AI practitioner.

Education

Bachelor of Science in Computer Science (BSCS)

National University of Modern Languages, Islamabad 2024

– 2029 (Expected)

Technical Skills

- Basics of Data Structures and Algorithms
- Object-Oriented Programming (OOP)
- SQL and Database Basics
- Introductory AI/Machine Learning Concepts
- MS Office (Word, Excel, PowerPoint)

Projects

• Student Grade Predictor | Python, Streamlit, Scikit-learn

Developed an interactive student performance prediction application using Linear Regression to estimate final marks based on study time and current academic performance. Automated grade, GPA, and SGPA calculations, with support for credit hours and lab-based courses.

• Spam Message Detector | Python, Flask, Scikit-learn

Developed a machine learning-based web application to classify messages as Spam or Not Spam using TF-IDF and Naive Bayes. Implemented a Flask-based interface for users to enter messages and receive instant prediction

Core Strengths

- Strong analytical and logical reasoning skills
- Quick adaptability to new tools and technologies
- Good communication and teamwork abilities
- Time management and ability to work under deadlines

Languages

English (Proficient), Urdu (Native)
